

Zwilch-Flox

Nomenclature	C57BL/6Smoc- <i>Zwilch</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Zwilch	Synonyms	2310031L18Rik
	NCBI ID	68014
	MGI ID	1915264
	Ensembl ID	ENSMUSG00000032400
	Human Ortholog	ZWILCH

Model Description

These mice carry loxP sites flanking target exons of Zwilch gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Zwilch gene.

*Literature published using this strain should indicate: Zwilch-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
